

ARBORjet[®]
Revolutionary Plant Health Solutions

PRODUCT CATALOG

Our mission is to develop the most effective formulations and delivery systems in Plant Health Care. As the premier solutions provider, we are committed to advancing technology in the industries we serve through thought leadership, scientific research, and exceptional customer service. As a leader, we recognize ethical behavior, environmental responsibility, and good stewardship are essential in sustaining our business, our customers and our planet.

ABOUT ARBORJET

OUR HISTORY - Arborjet was initially developed by arborists for arborists in order to effectively manage and control the many exotic and native insects, pests, and diseases threatening our natural and urban forests. Founded in 2000 by Peter M. Wild, owner of Boston Tree Preservation in Woburn, MA, Arborjet was established out of Peter's intent of finding a way to control Hemlock Woolly Adelgid, saving thousands of trees since the company's inception. Today, as the leading provider of tree care solutions, that same passion for innovation and service drives Arborjet to expand the types of technology created and industries served, changing the face of plant healthcare.

OUR RESEARCH - Our unique method of developing formulations includes a pairing process which matches the active ingredient and application method with the physiology of the plant. Whether treating ash trees in Chicago, palms in Miami, or tomato plants in Fresno, this approach is why you will find significantly longer residual control and superior overall performance with our products. Our ability to achieve such high levels of performance while maximizing uptake efficiency and protecting against phytotoxicity and other harmful side effects sets Arborjet apart.

OUR TEAM - At Arborjet, personal attention is a large part of who we are. You will always receive prompt and friendly service from knowledgeable and well-trained staff. We are happy to answer your questions and help you decide which solutions are right for your plant healthcare needs. We care about you and your success. Many of our staff are Certified Arborists, Pest Control Advisors, and hold board positions in major industry associations. Our Technical Advisors have a combined total of over 250 years in the green industry. Your successful plant health care program helps us realize our mission.

Call us at 781.935.9070 or visit us at www.arborjet.com. Thank you for your interest.

“Arborjet is truly the future in tree and palm care. It is easy to use and the customer support is fantastic.”

TREE-äge® G4

(4% Emamectin Benzoate)

New formulation, now available as a General Use Pesticide.

(040-4120) 1 quart*

*** One quart treats 27 trees (10" DBH) at medium rate**

Effective for: Emerald Ash Borer; Western, Southern, and Mountain Pine Beetles; Gypsy Moth; Winter Moth; Flatheaded Borers; Bagworm; Leafminers (Lepidoptera, Coleoptera, Hymenoptera) and many more

TREE-äge®

(4% Emamectin Benzoate)

TREE-äge® Insecticide is delivered into the tree's vascular tissue to assure rapid distribution and consistent results.

(040-4100) 1 liter*

(040-4105) 1 liter case of 8

***One liter treats 33 trees (10" DBH)**

Effective for: Emerald Ash Borer; Western, Southern, and Mountain Pine Beetles; Gypsy Moth; Winter Moth; Flatheaded Borers; Bagworm; Leafminers (Lepidoptera, Coleoptera, Hymenoptera) and many more

In addition to the pests noted on the TREE-äge federally registered label, Arborjet supports a FIFRA Section 2(ee) recommendation for TREE-äge insecticide to control additional bud and leaf and shoot, stem, trunk and branch pests. Please see the section 2(ee) recommendation to confirm that the recommendation is applicable in your state.

ACE-JET™

(97% Acephate)

Micro-injectable broad spectrum systemic insecticide for the management of specific insect pest.

(040-2011) Box of 20/15 grams

(040-2013) Single Packet/15 grams*

*** One 15 gram packet treats 1 tree (minimum 11" DBH)**

Effective for: Caterpillars, Pine Tip Moth, Winter Moth, Gypsy Moth, Eastern Tent Caterpillars, Fall Cankerworm, Fall Webworm, Adelgids, Aphids, Spider Mites, Scale, Boxelder Bugs EAB, Leafminers, Sawflies, Birch Leafminers, and many others

IMA-JET®

(5% Imidacloprid)

Micro-injectable systemic insecticide for the management of specific insect pests.

(040-2003) 1 liter*

(040-2004) 1 liter case of 8

(040-20020) 1 liter (Canada)

(040-20025) 1 liter case of 4 (Canada)

*** 1 liter treats 25 trees (10" DBH)**

Effective for: Adelgids, Aphids, Leaf Beetles (including Elm and Willow Leaf Beetles), Borers (including Emerald Ash Borer, Asian Longhorned Beetle and Bronze Birch Borer), Lacebugs, Leafhoppers, Leafminers, Mealybugs, Psyllids, Scale Insects and Whiteflies

Note: IMA-jet is only labeled for Emerald Ash Borer and Asian Longhorned Beetle in Canada.

IMA-JET 10®

(10% Imidacloprid)

The IMA-jet formulation you've come to trust, now available in a 10% formulation. Inject half the formulation, saving time and labor costs.

(040-20010) 1 liter*

(040-20015) 1 liter case of 4

*** 1 liter treats 50 trees (10" DBH)**

AzaSol®

(6% Azadirachtin)

Broad spectrum insecticide botanically derived from the Neem tree. A non-oil based water soluble powder that can be used as a spray, soil drench, tree injection, or through chemigation.

(040-5001) 6 oz. container (8 packets, 0.75 oz each)*

(040-5010) 0.75 oz. packet

(040-5020) 0.25 oz. packet

(040-5007) 2 lb container

***6 oz. treats approximately 1 to 3 acres as an agricultural spray (mixes with 50-150 gallons of water) and treats approximately 43 trees (10" DBH) as a trunk injection**

Effective for: Whiteflies, Leafminers, Scale, Mealybugs, Thrips, Aphids, Psyllids, Bugs, Flies, Sawflies, Caterpillars, Beetles, Weevils, Borers, Mole Crickets, Mushrooms Flies and Pests of Turf Grass

AVAILABLE IN CANADA!

(10% Linseed Oil, 1.34% Thyme Oil, 0.66% Peppermint Oil)
Broad spectrum contact insecticide and fungicide, derived from botanical plant oils.

- (040-7300) 32 fl. oz. RTU**
- (040-7310) 8 fl. oz. concentrate**
- (040-7320) 1 quart concentrate***
- (040-7350) 1 gallon concentrate**
- (040-7360) 2.5 gallon concentrate**

***1 quart of concentrate treats up to 8,000 square feet and makes up to 8 gallons**

Effective for: Aphids, mealybugs, psyllids, scales, thrips, two-spotted spider mites, whiteflies, powdery mildew, black spot, early and late blight, scab, gray mold, rust, brown rots, and leaf spot

PHOSPHO-JET™

(45.8% Phosphorous Acid)

Systemic fungicide and plant health response elicitor for the suppression of various plant diseases for use in spring or fall.

- (040-3011) 1 liter***
- (040-3016) 1 liter case of 8**

*** 1 liter treats 20 trees (10" DBH)**

Effective for: Sudden Oak Death, Anthracnose, Phytophthora, Black Spot, Scab, Fire Blight in Apple, Root Rot in Avocado and Citrus, Canker Blight and many others

PLANT GROWTH REGULATOR

Shortstop® 2SC

(22.3% Paclobutrazole)

A systemic plant growth regulator that slows aboveground vegetative growth by inhibiting gibberellin biosynthesis for use on trees. Shortstop is most effective when applied to the soil near the base of the tree either by soil injection or with basal soil drench.

- (040-1100) 1 gallon***
- (040-1105) 1/2 gallon**
- (040-1110) 1 gallon case of 4**

***1 gallon makes 12 gallons of diluted mixture**

Effective for: Slowing tree growth, reducing pruning frequency, reducing drought stress, reducing construction damage, enhancing fine root hair growth

Propizol®

(14.3% Propiconazole)

Systemic fungicide for trunk injection or spray application on trees, grasses, shrubs and flowers.

- (040-6300) 1 liter***
- (040-6302) 1 gallon**
- (040-6310) 1 liter case of 4**

***1 liter treats 10 trees (10" DBH), up to 1.5 acres for turfgrass applications, and makes up to 1,700 gallons for ornamental spray applications**

Effective for: Oak Wilt, Dutch Elm Disease, Sycamore, Anthracnose, and leaf diseases on Crabapples, plus Conifer Blights/Spots, Powdery Mildew, Rust, and broad spectrum disease control for grasses and ornamental plants

Arborjet also supports a FIFRA 2(ee) recommendation for the use of Propizol to prevent and/or control additional diseases. Please see the section 2(ee) recommendation to confirm that the recommendation is applicable in your state.

CLEANING & PRIMING SOLUTION

CLEANJET™

(0.5% Alkylary Polyalkoxylated Alcohols - Trace Fragrance)

All purpose cleaner and lubricant for all Arborjet injection devices; extends the life of the internal device o-rings.

- (030-2030) 1 liter**
- (030-2034) 1 liter case of 12**

Arbor-OTC®

(36.7% Oxytetracycline)

Water-soluble powder with flexible mixing rates and longer shelf life. Micro-injectable systemic antibiotic for the treatment of bacterial infections of trees and palms.

- (040-7500) 1 oz. (28 grams) container***
- (040-7505) 5 oz. (140 grams) container**

***1 oz. (28 g.) container treats 10 trees (10" DBH)**

Effective for: Ash Yellows, Bacterial Leaf Scorch, Fire Blight, Leaf Spot, Lethal Yellows, Phytoplasma Disease, Texas Phoenix Palm Decline

NutriRoot® 2-2-3

(2.0% N, 2.0% P, 3.0% K, 0.75% Fe, 0.5% Mn, 0.25% Zn, 22.0% Humectants, 4.0% Non-ionic Surfactant, 4.0% Seaweed Extract, 2.0% Humic Acid)

A unique blend of essential minerals, seaweed extract, humic acid, surfactants, and humectants designed to increase root development and to reduce water stress in trees, shrubs and lawns.

- (030-4100) 8 fl. oz. container***
- (030-4101) 1 quart container**
- (030-4102) 32 fl. oz. hose end sprayer**
- (030-4103) 1 gallon container**

***32 fl. oz. treats 20 trees for transplanting, new plantings, landscape installations, or existing landscapes**

Effective for: Root development, transplant success, water stress management, nutritional deficiencies, sandy soils, dry soil conditions, summer & winter stress

AVAILABLE IN CANADA!

FERTILIZERS

Mn-JET Fe

(2% Fe, 2% Mn, 1% K, 0.5% Zn, 0.1% Cu, 0.1% B)

Works for chlorosis caused by micronutrient deficiency, and as a good choice for general tree nutrition. Can be injected as formulated or diluted with water; or applied as a foliar spray.

(030-4160) 1 liter*

***1 liter treats 20 trees (10" DBH)**

Effective for: Micronutrient deficiencies in hardwoods, conifers, palms, and ground covers

PALM-JET Mg™ 1-2-2

(1.0% N, 2.0% P, 2% K, 1% Fe, 2.2% Mn, 0.75% Mg, 0.4% Zn, 0.07% B)

We've added more magnesium to our PALM-jet formulation to combat new nutrient deficiencies in Palms! Not only is PALM-jet Mg great for palm trees, it offers a great nutrient package for hardwoods, too.

(030-4130) 1 liter*
(030-4135) 1 liter case of 4

***1 liter treats approximately 66 medium size palms or 25 hardwoods**

Effective for: Nutrient deficiencies in palms and hardwoods

ARBORCHAR®

ALL PURPOSE GROW 5-6-4 PREMIUM FERTILIZER & BIOCHAR BLEND

(21.0% Biochar, 5.0% Nitrogen, 6.0% Phosphorous, 4.0% Soluble Potash, 6.0% Calcium, 2.0% Magnesium)

A fertilizer and biochar blend for improving leaf vigor, root development and soil structure in indoor and outdoor plants, trees and shrubs.

(030-5110) 1 lb Blend*
(030-5115) 4 lb Blend

***1 lb covers 200 square feet**

Effective for: General plant nutrition, improving sandy soils, increasing water retention, reducing nutrient leaching and soil compaction

ROOT, FLOWER & FRUIT 3-6-4 PREMIUM FERTILIZER & BIOCHAR BLEND

(22.0% Biochar, 3.0% Nitrogen, 6.0% Phosphorous, 4.0% Soluble Potash, 10.0% Calcium, 2.5% Magnesium)

A fertilizer and biochar blend for improving leaf vigor, root and fruit development and soil structure in indoor and outdoor plants, trees and shrubs.

(030-5120) 1 lb Blend*
(030-5125) 4 lb Blend

***1 lb covers 200 square feet**

Effective for: Adding calcium to inhibit Blossom End Rot, general plant nutrition, improving sandy soils, increasing water retention, and reducing nutrient leaching

SUMMER STRESS 0-0-9 PREMIUM FERTILIZER, BIOCHAR BLEND, & WATER MANAGER

(29.0% Biochar, 20.0% Leonardite, 6.0% Humectant, 9.0% Soluble Potash, 5% Magnesium, 1.5% Iron)

A unique blend of biochar, humectants and fertilizer for reducing watering while improving leaf greening in stressed conditions, root development and soil structure in indoor and outdoor plants, trees and shrubs.

(030-5130) 1 lb Blend*
(030-5135) 4 lb Blend

***1 lb covers 100 square feet**

Effective for: Maintaining green color and plant vigor, decreasing seasonal stress, and improving sandy and clay soil structure as well as water retention

AccuFlo DEVICE

(070-3050)

Easy to use and offering consistent, repeatable results, the AccuFlo represents a shift in the way we apply fluid nutrients, pesticides and fungicides in the landscape.

KIT INCLUDES

- AccuFlo Device
- USB Charging Cable
- Training Manual

AccuFlo DRENCH KIT

(070-3000)

KIT INCLUDES

- AccuFlo Device
- USB Charging Cable
- Training Manual
- 4L Measuring Pitcher
- 500ml Measuring Pitcher
- Handheld Pick Axe
- Chapin 4-gallon 24v Backpack Sprayer System

AccuFlo DRENCH BUCKET

(070-3055)

KIT INCLUDES

- AccuFlo Device
- USB Charging Cable
- Training Manual
- 4L Measuring Pitcher
- 500ml Measuring Pitcher
- Handheld Pick Axe

QUIK-JET® KIT

(070-2252)

The QUIK-jet is a cost effective injection tool designed for lower dose applications. It can also be used as a diagnostic tool to assess tree health and vascular activity. The QUIK-jet kit is a good starter kit for someone just getting into trunk injection and a great complementary tool to the TREE I.V.

KIT INCLUDES

- 1 QUIK-jet device
- 2 1-Liter supply bottles
- 1 Protective storage bag for QUIK-jet device
- 1 Belt hook
- 1 Belt clip
- 1 Arborplug setter
- 1 3/8" drill bit
- 1 9/32" drill bit
- 1 Needle clean out tool
- 1 Pair of safety glasses
- 1 Graduated cylinder
- 1 Storage bucket
- 1 Funnel
- ½ Liter of CLEAN-jet
- 1 Training manual

QUIK-JET AIR® KIT

(070-2350)

The QUIK-jet AIR features one-thumb switch operation, precise dose measuring, and air-powered injection in a rugged aluminum body weighing less than 2 pounds. You'll notice the difference when you make the switch and use QUIK-jet AIR. See manual for air tank refill instructions.

KIT INCLUDES

- 1 QUIK-jet AIR device
- 1 Liter supply bottle
- 1 Protective storage bag for QUIK-jet AIR device
- 1 Arborplug setter
- 1 3/8" drill bit
- 1 9/32" drill bit
- 1 Needle clean out tool
- 1 Pair of safety glasses
- 1 Graduated cylinder
- 1 Funnel
- ½ Liter of CLEAN-jet
- 1 Training manual
- 1 3000 PSI Air Tank

Visit arborjet.com/air to see it in action!

F SERIES[®]

TREE I.V.

The next generation of TREE I.V. Inject trees like never before with first 120 psi micro-infusion system. Big tree or small, 2 bottle sizes give you flexibility on the job. An easy fill cap allows you to add product without removing the bottle, making it safe and the state of the art

Hex PDS manifold uses parallel distribution to ensure even injection. You can connect anywhere from 4-18 lines, depending on kit configuration, maximizing your time and energy.

F12 KIT

(070-0055)

KIT INCLUDES

- 1 Bucket
- 2 Single FSeries Caps
- 2 1.5L high pressure bottles
- 2 650mL high pressure bottles
- 12 VIPER ball valve assemblies
- 2 Hex PDS[®] manifolds
- 1 FSeries expansion kit
- 2 FSeries stands
- 2 VIPER needle clean-out tools
- 1 High Pressure pump
- 1 3/8" drill bit
- 1 9/32" drill bit
- 1 Arborplug setter
- 1 Graduated cylinder & 1 Funnel
- ½ Liter of CLEAN-jet
- 1 Training manual

F12 PRO KIT

(070-0058)

All of the exciting features of the F12 kit - high pressure, multiple bottles, and the Hex PDS - complete with a QUIK-jet to cover all of your injection needs.

KIT INCLUDES

- 1 Bucket
- 2 Single FSeries Caps
- 2 1.5L high pressure bottles
- 2 650mL high pressure bottles
- 12 VIPER ball valve assemblies
- 2 Hex PDS manifolds
- 1 FSeries expansion kit
- 2 FSeries stands
- 2 VIPER needle clean-out tools
- 1 High Pressure pump
- 1 QUIK-jet device w/ bottle top assembly
- 1 3/8" drill bit
- 1 9/32" drill bit
- 1 Arborplug setter
- 1 Graduated cylinder & 1 Funnel
- ½ Liter of CLEAN-jet
- 1 Training manual

F18 KIT

(070-0065)

KIT INCLUDES

- 1 Bucket
- 3 Single FSeries Caps
- 3 1.5L high pressure bottles
- 3 650mL high pressure bottles
- 18 VIPER ball valve assemblies
- 3 Hex PDS[®] manifolds
- 1 FSeries connector kit
- 3 FSeries stands
- 2 VIPER needle clean-out tools
- 1 High Pressure pump
- 1 3/8" drill bit
- 1 9/32" drill bit
- 1 Arborplug setter
- 1 Graduated cylinder & 1 Funnel
- ½ Liter of CLEAN-jet
- 1 Training manual

F18 PRO KIT

(070-0068)

KIT INCLUDES

- 1 Bucket
- 3 Single FSeries Caps
- 3 1.5L high pressure bottles
- 3 650mL high pressure bottles
- 18 VIPER ball valve assemblies
- 3 Hex PDS[®] manifolds
- 1 FSeries connector kit
- 3 FSeries stands
- 2 VIPER needle clean-out tools
- 1 High Pressure pump
- 1 QUIK-jet device w/ bottle top assembly
- 1 3/8" drill bit
- 1 9/32" drill bit
- 1 Arborplug setter
- 1 Graduated cylinder & 1 Funnel
- ½ Liter of CLEAN-jet
- 1 Training manual

TREE I.V.™

2-PACK KIT

(070-0012)

The tried and true micro-infusion system. For coniferous and hardwood trees. High volume, low pressure, can be used with mixable products. A perfect starter kit.

KIT INCLUDES

- 1 Bucket
- 2 TREE I.V. bottles
- 8 VIPER ball valve assemblies
- 2 TREE I.V. manifold 4-line
- 2 TREE I.V. stands
- 2 VIPER needle clean-out tools
- 1 Pressure pump
- 1 TREE I.V. tool kit
- 1 3/8" drill bit
- 1 Pair of safety glasses
- 1 9/32" drill bit
- 1 Arborplug setter
- 1 Graduated cylinder
- ½ Liter of CLEAN-jet
- 1 Funnel
- 1 Training manual

PRO KIT

(070-0038)

Designed for high dosage applications in all tree sizes and types. All the components you need for high production, including an extra TREE I.V. and Arborjet bucket instead of a carrying case.

KIT INCLUDES

Contents of TREE I.V. 2-Pack PLUS:

- 2 additional TREE I.V. bottles
- 8 additional VIPER ball valve assemblies
- 2 additional TREE I.V. manifold 4-line
- 2 additional TREE I.V. stands
- 1 TREE I.V. expansion manifold
- 1 QUIK-jet device
- 1 liter supply bottle
- 1 Protective storage bag for QUIK-jet device
- 1 Belt hook
- 1 Belt clip
- 1 12 pack bungee cord 12-22"

WHICH INJECTION SYSTEM IS RIGHT FOR YOU?

FSeries/TREE I.V.

- Great all-around system
- Best option for slower uptake trees such as conifers, but also good for hardwoods and palms
- Higher volumes of over 100 mL per tree, like fungicide or nutrient applications
- Quantity of larger trees in the same location

QUIK-jet

- Fast and easy to use
- Best option for ring porous or low-resistant trees like red oak, sycamore, elm, poplar, tulip poplar, sweetgum or palm
- Lower volumes of under 20 mL per injection site, like insecticide applications
- Smaller trees and projects
- Can connect directly to product bottle for undiluted applications

QUIK-jet AIR

- Powerful and productive
- Best option for diffuse porous or low - to moderate -resistant trees like ash, maple, white oak, plus those listed for QUIK-jet
- Low-to moderate- volumes of 40 mL or less per injection site, like insecticides and undiluted fungicides or nutrients
- Treat any size trees and up to 200 16" DBH trees per air tank refill
- Can connect directly to product bottle for undiluted applications

DRILL

PLUG

INJECT

ARBORPLUGS®

The Arborplug is a technological advancement in trunk injection and a key component of the Arborjet injection methodology.

#4 Arborplug 3/8"
(070-0156) Pack of 100

Recommended for: Conifers and medium to large trees.

#3 Arborplug 9/32"
(070-0150) Pack of 100

Recommended for: Small to medium deciduous trees.

Arborplug Advantage

- Tight seal for fast, consistent injection.
- Protects the surrounding environment and the applicator from unintended product contact.
- Minimizes the number of injection sites and helps to inhibit infection

Arborplug Placement

SET CORRECTLY

- Fastest rate of uptake
- Least chance of leakage
- Best protection of the cambium
- Fastest wound closure (growth over the Arborplug)

Creates the perfect injection interface; internal septum "seals" injection site.

Enables rapid, high volume product delivery directly into the xylem tissue.

Prevents internal wood decay or infection & speeds site closure & healing.

SET TOO SHALLOWLY

- Highest chance of leakage
- Higher chance of bark splitting
- Least protection of the cambium
- Slower wound closure (pushes the Arborplug out)

SET TOO DEEPLY

- Slowest rate of uptake
- Higher chance of leakage
- Deeper wound than necessary

ARBORPLUG AND VIPER NEEDLE OPTIONS

VIPER Needle
(070-0501)

Components: 4 Needles

VIPER Needle Line Extension
(070-0630)

Arborplug Setter 2-Pack
(070-0120)

Drill Bit Kits*

(070-0660) Drill Bit 2-Pack Kit #3 and #4

(070-0665) Drill Bit 2-Pack Kit #4

(070-0670) Drill Bit 2-Pack Kit #3

STINGER OPTIONS

When you don't need an Arborplug

STINGER Needle & Valve Assembly 4 Pack
(070-0336)

STINGER Needle 2 pack
(070-0620)

STINGER Needle Line Extension
(070-0640)

Drill Bit – 7/32" STINGER 2 pack *
(070-2020)

ADDITIONAL ACCESSORIES

Diameter Tape
(975-00165)

Measures tree size. 3/8" x 12' compact measuring tape instantly converts tree circumference to diameter inches (DBH).

Single TREE I.V.
(070-0022)

No accessories included.

*These items are not manufactured or produced in the USA

QUIK-JET REPLACEMENT PARTS

QUIK-jet Rebuild Kit
(070-2281)

1 Liter Supply Bottle
(010-9022)

QUIK-jet Glass Barrel *
