I just wanted you to know how pleased I am with your product. I admit I was skeptical at first but DEER OUT really works! Every time my roses were getting ready to bloom I'd wake up to find them nipped off right below the bud. After using your product I have beautiful roses blooming everywhere and not one has been nipped off. It's nice to receive compliments from the neighbors again. THANKS DEER OUT!

"I have been so pleased with the results having used Deer Out this season. It has steered the deer out of my garden beds & shrubs. I have seen ALL my day lilies bloom profusely for the first time in years. Some I had NEVER seen - and all my hostas are intact! It seems to do exactly what you claim. Thank You."

Deer Out worked great around my vegetable garden, it kept the deer out of the garden, where in previous years the deer would eat the lettuce, carrots & cucumbers... But not this year.

We are very happy with Deer Out. The deer that roam our neighborhood routinely eat everything we plant including hollies!! Not anymore! The hollies, the hosta plants, camellias, day lilies, and roses all have new life!! Thanks. Keep up the good work.
