READ LABEL CAREFULLY

CAUTION - KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May cause gastrointestinal distress. Avoid contact with eyes, skin and clothing. Safety goggles or a full face shield should be worn. Wear appropriate protective equipment to protect skin. Avoid breathing spray mist or vapor. Contact may cause eye or skin irritation. See First Aid instructions below in case of contact. Keep containers closed. Wash thoroughly after handling.

FIRST AID: In case of contact with eyes, immediately flush eyes with water for at least 15 minutes. Seek immediate medical attention if irritation occurs. In case of skin contact, flush skin with water. If irritation occurs, seek immediate medical attention. Remove and wash contaminated clothing before reuse. If swallowed, give large amounts of water and induce vomiting by touching back of throat with finger unless unconscious. Seek immediate medical attention.

HANDLING AND STORAGE: Minimize skin exposure. Store mini-bulks and smaller containers out of the sun in an area of moderate temperature. Do not re-use containers. Avoid containers, piping or fittings made of copper containing alloys or galvanized metal. Dispose of container according to Federal EPA procedures as outlined in the Resource Conservation Act (RCRA) and follow state and local guidelines. Triple rinse and puncture as required.

IN CASE OF SPILL: Contain spill and maximize recovery. Keep spill out of water sources. Exercise caution in area of spill for slippery conditions. Dispose of spilled material in accordance with regulatory requirements.

Lesco® Green Flo™ Humic Supplement 6-0-0

DIRECTIONS FOR USE - TURF GRASSES LAWN CARE PROGRAM

LESCO® Green Flo™ Humic Supplement 6-0-0 may be applied as a spray application on all turf grasses (cool, transitional and warm season) including lawns, athletic fields, and golf courses, fairways, greens and tees.

LESCO® Green Flo™ Humic Supplement 6-0-0 may be applied as a dilute solution via hand gun or spray boom application and may be injected through the irrigation system. Apply with sufficient water to achieve adequate soil absorption especially during periods of low humidity and high temperature to achieve the maximum benefit of foliar fertilization.

APPLICATION: Initiate application in spring when first green-up appears and repeat as needed during the active growing season. Apply in 1 ½ to 4 gallons of spray solution per 1000 sq ft.

LIGHT OR SANDY SOILS: Recommended application rate is 1 gallon per acre in 4 to 6 applications at 8 to 12 week intervals. Irrigate or water in to ensure maximum soil contact.

HEAVY OR COMPACTED SOILS: Initial application rate may vary from 3 to 4 gallons per acre. Subsequent application rates are recommended at 1 gallon per acre as needed. Best results are achieved when initial application immediately follows aeration. Irrigate or water in to ensure maximum soil contact.

FERTIGATION: LESCO® Green Flo™ Humic Supplement 6-0-0 and blends may be injected during each irrigation utilizing the current technology and equipment available to the golf course superintendent. It is recommended that rates be in accordance with soil testing data and the equipment manufacturer's recommendations.
