Not for Sale, Sale Into, Distribution and/or Use in Nassau, Suffolk, Kings, Queens Counties of New York	After the product has been loaded into properly calibrated application equipment, shirt, pants, socks, and shoes are sufficient Personal Protective Equipment. Follow manufacturer's instructions for cleaning/maintaining personal protective equipment (PPE). If no such instructions for washables are available, use detergent and hot water. Keep and wash PPE separately from other laundry.		
Lebanon [®] Pro	User Should:		
	Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside.		
BRAND	Then wash thoroughly and put on clean clothing. ENVIRONMENTAL HAZARDS		
FERTILIZER WITH	This pesticide is toxic to aquatic invertebrates, oysters and shrimp. Do not apply directly to water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to use sites.		
0.067% Acelepryn [®]	Surface Water Advisory: This product may impact surface water quality due to runoff or rain water. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having a high potential for reaching surface water via runoff for several months or more after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of chlorantraniliprole from runoff water and sediment. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.		
INSECTICIDE and GRUB PREVENTER	areas where soils are permeable, particularly where the water table is shallow.		
Group 28 Insecticide	DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read and understand the entire label before using this product.		
	Lebanon Pro Brand Fertilizer with 0.067% Acelepryn [®] Insecticide and Grub Preventer must be used only in accordance with specifications on this label or in separate Lebanon Seaboard Corporation supplemental labeling that may be made temporarily available through local distributors, as a result of new EPA approvals. Lebanon Seaboard Corporation will not be responsible for losses or damages resulting from the use of this product in any manner not specifically stated on this label or other labels or bulletins published by Lebanon Seaboard Corporation. User assumes all risks associated with such non-specified use		
17-0-3			
	AGRICULTURAL USE REQUIREMENTS Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on the label about personal protective equipment, restricted-entry interval, and notification to workers (as applicable).		
	Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.		
Total Nitrogen (N)	For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.		
17.0% Urea Nitrogen* Soluble Potash (K20)	Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours. For early entry into treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, wear.		
Sultur (S)	• Long-sleeved shirt and long pants • Shoes plus socks		
0.16% Combined Sulfur (S) Iron (Fe)2.0% 0.2% Water Soluble Iron (Fe)	NON-AGRICULTURAL USE REQUIREMENTS The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides, 40 CFR part 170. The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.		
Derived From: urea, polymer coated urea, muriate of potash, iron oxide, iron sulfate. F699	Professional applications to golf courses, residential, industrial and commercial lawns and sports fields are not within the scope of the Worker Protection Standard.		
Chlorine (Cl) not more than	Do not allow other workers to enter the treated area while application is in progress. Do not apply this product in commercial nurseries and greenhouses.		
	PRODUCT INFORMATION Lebanon Pro Brand Fertilizer with 0.067% Acelepryn [®] Insecticide and Grub Preventer may be applied for the control of white grubs and other listed pests infesting landscape and recreational turfgrass (including golf courses) as well as landscape ornamentals and interior plantscapes.		
SUGGESTED SPREADER SETTINGS	Lebanon Pro Brand Fertilizer with 0.067% Acelepryn [®] Insecticide and Grub Preventer may be used on plants or turfgrasses that are being grown for aesthetic or recreational purposes or climatic modification in or around home lawns, commercial lawns, industrial facilities, residential dwellings, business and office complexes, shopping complexes, multi-family residential complexes, institutional buildings, airports, cemeteries, interior plantscapes, ornamental gardens, parks, wildlife plantings, playgrounds, schools, day-care facilities, golf courses (tee box areas, roughs, fairways, greens, collars etc.), athletic fields, sod farms and other landscaped areas.

APLICATION EOUIPMENT Apply Lebanon Pro Brand Fertilizer with 0.067% Acelepryn[®] Insecticide and Grub Preventer with drop-type, rotary-type or hand-held application equipment. The application equipment must be properly calibrated according to the manufacturer's directions to ensure uniform coverage over the treated area. During application, check equipment periodically to confirm that it is working properly and that the granules are being uniformly distributed. APPLICATION TIMING White Grubs: Apply Lebanon Pro Brand Fertilizer with 0.067% Acelepryn[®] Insecticide and Grub Preventer from early April to early September for preventative and early curative control all of the major while grub control. The higher rate listed of while grub control. The bigher rate listed of while grub control. The higher rate listed of while grub control. The higher rate listed of while application or early September when less sensitive mid-instar grubs are present at the time of application. Irrigate turi immediately after application or allow rainfall to move the product into the soil.<		

TABLE 1: TURFGRASS APPLICATION RATES

Target Pest	Product per Acre	Product per 1,000 Square Feet	lb Al/A
White Grubs (including Aphodius spp., Asiatic garden beetle, black			
turfgrass ataenius, European chafer, green June beetle, Japanese beetle,	150 to 300 pounds*	3.44 to 6.88 pounds	0.1 to 0.2
May/June beetles (Phyllophaga spp.), northern masked chafer, oriental			
beetle and southern masked chafer)			
Billbugs			
European Crane Fly			
Turf caterpillars (including armyworms, cutworms and sod webworms)			
Annual bluegrass weevil	225 to 300 pounds*	5.17 to 6.88 pounds	0.15 to 0.2
Spittlebugs			
Chinch bugs (suppression only)	150 to 300 pounds*	3.44 to 6.88 pounds	0.1 to 0.2

*For maximum residual effectiveness or optimal control of large pest infestations, apply Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer at up to 500 pounds per acre (0.33 lb AI/A).

APPLICATION RATES FOR ORNAMENTAL PLANTS

APPLICATION THAT ALL S FOR ONNAMINATION FLANDS of landscape ornamentals and interior plantscapes. Before application, remove black plastic or other weed barrier materials that are impermeable to water. For maximum residual effectiveness or for optimal control of large pest infestations, Lebanon Pro Brand Fertilizer with 0.067% Aceleprym® Insecticide and Grub Preventer may be applied at up to 500 pounds per acre (0.33 lb Al/A) to control any of the pests listed in Table 2.

Restriction: Do not apply more than 750 pounds (equivalent to 0.5 lb of active ingredient) of product per acre per year in broadcast applications to ornamental plants.
 TABLE 2: ORNAMENTAL TREE AND SHRUB (INCLUDING EVERGREENS), FLOWER, FOLIAGE PLANT, AND GROUNDCOVER APPLICATION RATES

*For maximum residual effectiveness or optimal control of large pest infestations, apply Lebanon Pro Brand Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer at up to 500 pounds per acre (0.33 lb Al/A).

CLEANING APPLICATION EQUIPMENT

Thoroughly clean all application equipment after use to reduce the risk of forming hardened deposits that might become difficult to remove. Thoroughly rinse application equipment with clean water. Clean all other associated application equipment. Take all necessary safety precautions when cleaning equipment. Do not clean equipment near wells, or other water sources. Dispose of waste rinse water in accordance with local regulations. INTEGRATED PEST MANAGEMENT (IPM) PROGRAMS

Lebanon Pro Brand Fertilizer with 0.067% Acelepryn[®] Insecticide and Grub Preventer is recommended for IPM programs on turf and landscape ornamentals because it does not directly impact natural arthropod predator and parasitoid populations including ladybird beetles, lacewings, minute pirate bugs and predatory mites. The feeding behavior of beneficial arthropods will aid in extending natural control of other insect and mite pests and will reduce the possibility of secondary pest outbreaks. Lebanon Pro Brand Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer will reduce the target pest species that may serve as a food source for beneficial arthropods.

RESISTANCE MANAGEMENT

Some insects are known to develop resistance to products used repeatedly for control. When this occurs, the labeled dosages fail to suppress the pest population below threshold levels. Because the development of resistance cannot be predicted, the use of this product should conform to resistance management strategies established for the use area.

These strategies may include incorporation of cultural and biological control practices, alternation of active classes of insecticides on succeeding generations and targeting the most susceptible life stage. Consult your local Lebanon Seaboard Corporation representative, Cooperative Extension Service specialist or pest control advisor for the latest information on resistance management in your area.

RESTRICTIONS

Not for use on plants (except turfgrass on sod farms) being grown for sale or other commercial use, or for commercial seed production.
 Do not formulate this product into other end-use products without written permission from Lebanon Seaboard Corporation.

Do not apply this product in commercial nurseries and greenhouses.
Do not apply more than 750 pounds (equivalent to 0.5 lb of active ingredient) of product per acre per year in broadcast applications to turgrass or landscape

ornamental plants. • Do not apply more than 300 pounds (equivalent to 0.2 lb of active ingredient) of product per acre in a single application on sod farms.

· Wait a minimum of 7 days to retreat

Do not apply by air.

The following restrictions are required to permit use of Lebanon Pro Brand Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer in the State of New York: Golf courses:

Greens, tee boxes: Do not apply this product within 25 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch). Fairways: Do not apply this product within 50 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).

All other use sites:

Do not apply this product within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).

STORAGE AND DISPOSAL

o not contaminate water, food, or feed by storage or dis STORAGE: Store product in original container only in a location inaccessible to children and pets. Do not contaminate water, other pesticides, fertilizer, food o feed in storage. Not for use or storage in or around the home. PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product must be disposed of on other the second or the storage.

e or at an approved waste disposal facility. CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury

The bifectoris of ose of this product must be knowned calcular, it is impossible to eminiate an answer in the second and the desort and bodie. Crop right, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of Lebanon Seaboard Corporation or Seller. To the extent permitted by applicable law, Buyer and User agree to hold Lebanon Seaboard Corporation and Seller harmless for any claims relating to such factors.

Lebanon Seaboard Corporation warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. To the extent permitted by applicable law: (1) this warranty does not extend to the use of this product contrary to label instructions or under conditions not reasonably foreseeable to or beyond the control of Seller or Lebanon Seaboard Corporation, and, (2) Buyer and User assume the risk of any such use. TO THE EXTENT PERMITTED BY APPLICABLE LAW, Lebanon Seaboard Corporation MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS WARRANTED BY THIS LABEL.

To the extent permitted by applicable law, in no event shall Lebanon Seaboard Corporation be liable for any incidental, consequential or special damages resulting from the use or handling of this product. TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF Lebanon Seaboard Corporation AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANT CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF Lebanon Seaboard Corporation OR SELLER, THE REPLACEMENT OF THE PRODUCT.

Lebanon Seaboard Corporation and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Lebanon Seaboard Corporation. For non-emergency (e.g., current product information), call Lebanon Seaboard Corporation at 1-800-233-1067
