

GARRETT JUICE PLUS IS IDEAL FOR USE ON
PLANTS AND SOILS.

HOW TO APPLY MEDINA GARRETT JUICE PLUS

Application Rates for

Soil Drenching:

- Mix 4 oz (1/2 cup) per gallon of water, apply weekly or as needed.

Foliar Feeding:

- Mix 2 oz (1/4 cup) per gallon of water, apply weekly or as needed.

Be sure to spray solution on all leaf surfaces, including the undersides. Foliar feed early or late in the day, never in direct sunlight. Start applications as soon as new emerging plants have 3 to 4 leaves.

Important Tip: Shake well. Use within a few hours of mixing. Always dilute and apply with water.

COMO APLICAR MEDINA GARRETT JUICE PLUS?

• **empapar el suelo**- Usa 4 onza o 1/2 taza por gallon de aqua, aplicar semanalmente o según sea necesario

• **alimentación foliar**- Usa 2 onza o 1/4 taza por gallon de aqua, aplicar semanalmente o según sea necesario

Sugerencias: Nunca aplique el concentrado sin diluirlo.

Garrett Juice Plus is a foliar plant food and soil treatment developed by the Dirt Doctor, Howard Garrett. Garrett Juice Plus is the newest generation in the Garrett Juice success story made from the simple but powerful formula of compost tea, apple cider vinegar, molasses, humic acid, seaweed and liquid fish.

CONTAINS BENEFICIAL SUBSTANCES

(Cane) Molasses	25%
Apple Cider Vinegar	25%
Humic Acid from Leonardite	0.5%

Purpose: Molasses is used as energy for microbes. Apple Cider Vinegar is used for trace minerals and as a preservative. Humic Acid encourages natural processes in the soil.

WHAT MAKES MEDINA GARRETT JUICE PLUS SO DIFFERENT?

- It's a liquid concentrate that is very effective for foliar feeding and soil drenching.
- Can be applied during the entire growing season.
- Designed to feed the soil and the plant.
