Monterey Garden Phos is the kind of product that should be on every garden retail shelf. It's one of the easiest to use, and one of the most diversified systemic fungicides that can be used in all areas of the US during most of the year, AND it controls diseases that most fungicides don't touch.

- **Application** – Foliar spray, soil drench, basal bark spray, tree injection, root dip, and in-furrow spray
- **Uses** – Fruit and nut trees, vegetable crops, landscape applications, ornamental applications, greenhouse and bedding plants, conifers and lawns
- **Diseases Controlled** – Root rots, Phytophthora, Pythium, Sudden Oak Death, apple scab, fire blight, downy mildew, anthracnose, Rhizoctonia and many more
- **Sizes** – Pints, quarts, gallons, and 2.5 gallons

A product for all seasons and all areas, controls numerous diseases, and can be used in so many ways. And, it breaks down into fertilizer. You don't have to worry about inventory carryover with Garden Phos – it can be used all year long.

Stock Monterey Garden Phos!

Once your customers use it they'll come back for more.

May not be registered in all states. Read the label before using. Monterey Garden Phos is a trademark of Lawn and Garden Products, Inc. Made in the USA
