After the product has been loaded into properly calibrated application equipment, shirt, pants, socks, and shoes are sufficient Personal Protective Equipment. Follow manufacturer's instructions for cleaning/maintaining personal protective equipment, spint, parties, socks, and shoes are sufficient Personal Protective Equipment. Follow manufactur instructions for cleaning/maintaining personal protective equipment (PPE). If no such instructions for washables are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendation User Should:

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet

Remove clothing immediately if pesticide gets inside . Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic invertebrates, oysters and shrimp. Do not apply directly to water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to use sites

Surface Water Advisory: This product may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soils and soils with shallow ground water. build water Advisory. This product hay impact surface water quarky use to fund of an water. This is especially use to poorly utaning sour and sours with standow ground water. This product is classified as having a high potential for reaching surface water via runoff for several months or more after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of chlorantraniliprole from runoff water and sediment. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.

Ground Water Advisory: This chemical has properties and characteristics associated with chemicals detected in ground water. This chemical may leach into ground water if used in areas where soils are permeable, particularly where the water table is shallow.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling ead and understand the entire label before using this product.

*For maximum residual effectiveness or optimal control of large pest infestations, apply Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer at up to 500 pounds per acre (0.33 lb Al/A). Lebanon ProScape Fertilizer with 0.067% Acelepron® Insecticide and Grub Preventer must be used only in accordance with specifications on this label or in separate Lebanon Seaboard Corporation robustle labeling that may be made temporarily available through local distributors, as a result of new EPA approvals. Lebanon Seaboard Corporation will not be responsible for losses or damages resulting from the use of this product in any manner not specifically stated on this label or other labels or bulletins published by Lebanon Seaboard Corporation. User CLEANING APPLICATION EQUIPMENT assumes all risks associated with such non-specified use

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, ar mergency assistance. It also contains specific instructions and exceptions pertaining to the statements on the label about personal protective equipment, restricted-entry terval, and notification to workers (as applicable).

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation

to not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours

For early entry into treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, wear Long-sleeved shirt and long pants
 Shoes plus socks

NON-AGRICULTURAL USE REQUIREMENTS 'he requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides, 40 CFR part 170. The WPS pplies when this product is used to produce agricultural plants on farms, forests, nurseries, or gree

fessional applications to colf courses, residential, industrial and commercial lawns and sports fields are not within the scope of the Worker Protection Standard.

o not allow other workers to enter the treated area while application is in progress. Do not apply this product in commercial nurseries and greenhouse

PRODUCT INFORMATION

 Do not apply by air. Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer may be applied for the control of white grubs and other listed pests infesting landscape and recreational turfgrass (including golf courses) as well as landscape ornamentals and interior plantscapes. The following restrictions are required to permit use of Lebanon ProScape Fertilizer with 0.067% Acelepryr[®] Insecticide and Grub Preventer in the State of New York: Golf courses:

Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer may be used on plants or turforasses that are being grown for aesthetic or recreational Fairways: Do not apply this product within 50 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch) Explain rocage of climatic modification in or around home lawns, commercial lawns, industrial facilities, residential dwellings, business and office complexes, shopping complexes, multi-family residential complexes, institutional buildings, airports, cemeteries, interior plantscapes, ornamental gardens, parks, wildlife plantings, playgrounds, schools, day-care facilities, golf courses (tee box areas, roughs, fairways, greens, collars etc.), athletic fields, sod farms and other landscaped areas. All other use sites: Do not apply this product within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch)

Do not apply Lebanon ProScape Fertilizer with 0.067% Aceleptyn® Insecticide and Grub Preventer when the soil is saturated with water because adequate distribution of the ctive ingredient vertically in the soil profile cannot be achieved under this condition

Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer is in GROUP 28 of the EPA's Insecticide and Acaricide Groups Based on Target Site of Action (EPA PR Notice 2001-5) and may be used in rotational resistance management programs

Consult your local Lebanon Seaboard Corporation representative, Cooperative Extension Service specialist or pest control advisor for regionally specific information regarding application timing.

APPLICATION FOLIPMENT

Apply Lebanon ProScape Fertilizer with 0.067% Acelepryn[®] Insecticide and Grub Preventer with drop-type, rotary-type or hand-held application equipment. The application equipment must be properly calibrated according to the manufacturer's directions to ensure uniform coverage over the treated area. During application, check equipment periodically to confirm that it is working properly and that the granules are being uniformly distributed.

APPLICATION TIMING

White Grubs: Apply Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer from early April to early September for preventative and early curative control all of the major white grub species infesting turfgrass. The need for an application may be based on historical monitoring of the site, previous records or experiences, current season adult trapping or other methods. The higher rate listed for white grub control in Table 1 may be required in late August or early September when less sensitive mid-instar grubs are present at the time of application. Irrigate turf immediately after application or allow rainfall to move the product into the soil.

Lebanon Seaboard Corporation warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. To the extent permitted by phecionis for Set, subject to the inherent has released to above, when used in accordance with directions and informations of under continuous, to the extent permitted by applicable law; (1) this warranty does not extend to the use of this product contrary to label instructions or under conditions not reasonably foreseeable to or beyond the control of Seller or Lebanon Seaboard Corporation, and, (2) Buyer and User assume the risk of any such use. TO THE EXTENT PERMITTED BY APPLICABLE LAW, Lebanon Seaboard Corporation MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER LAW, Lebanon Seaboard Corporation MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER Control of Section 2010 and the section of the section Annual Bluegrass Weevil: Apply Lebanon ProScape Fertilizer with 0.067% Acelepron® Insecticide and Grub Preventer when overwintered adult annual bluegrass weevils are Insection and a program of the section of the secti EXPRESS OR IMPLIED WARRANTY EXCEPT AS WARRANTED BY THIS LABEL.

To the extent permitted by applicable law, in no event shall Lebanon Seaboard Corporation be liable for any incidental, consequential or special damages resulting from the use o Billbugs: Apply Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer when overwintered adult billbugs are first observed. This will usually occur handling of this product. TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF Learnin Seaboard Corporation AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANT CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF in late April or early May in regions with cool-season turforasses. An application of Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer at this ime will also provide white grub control. The higher rates listed in Table 1 may be required for applications made after early May or when billbug species other than bluegrass THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF Lebanon Seaboard Corporation OR SELLER, THE REPLACEMENT OF THE PRODUCT. billbug are presen

Lebanon Seaboard Corporation and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty European Crane Fly: Apply Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer between September and November to control European crane and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Lebanon Seaboard Corporation fly larvae in turfgrass. The higher rate listed in Table 1 may be required to achieve control when applications are made in November For non-emergency (e.g., current product information), call Lebanon Seaboard Corporation at 1-800-233-1067

Spittlebugs: Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer will provide control of two-lined spittlebug when applications are made in spring or summer

Turf Caterpillars: Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer will provide curative caterpillar control in turfgrass. If the area being treated is maintained at a mowing height of greater than one inch, then the higher rate listed in Table 1 may be required during periods of high pest pres

Chinch Bugs: For suppression of chinch bugs, apply Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer before eggs hatch.

APPLICATION RATES FOR LAWNS, GOLF COURSES AND OTHER RECREATIONAL TURFGRASS AREAS

Table 1 provides the application rates that will control the listed turfgrass pests. For maximum residual effectiveness or for optimal control of large pest infestations, apply Lebanon ProScape Fertilizer with 0.067% Acelepryn[®] Insecticide and Grub Preventer at up to 500 pounds per acre (0.33 lb Al/A) to control any of the pests listed in Table 1. Restriction: Do not apply more than 750 pounds (equivalent to 0.5 lb of active ingredient) of product per acre per year in broadcast applications to turfgrass.

Thoroughly clean all application equipment after use to reduce the risk of forming hardened deposits that might become difficult to remove. Thoroughly rinse application equipment with clean water. Clean all other associated application equipment. Take all necessary safety precautions when cleaning equipment. Do not clean equipment near wells, or other water sources. Dispose of waste rinse water in accordance with local regulations.

INTEGRATED PEST MANAGEMENT (IPM) PROGRAMS

Lebanon ProScape Fertilizer with 0.067% Acelepryn[®] Insecticide and Grub Preventer is recommended for IPM programs on turf and landscape ornamentals because it does not directly impact natural arthropod predator and parasitoid populations including ladybird beetles, lacewings, minute pirate bugs and predatory mites. The feeding behavior of beneficial arthropods will aid in extending natural control of other insect and mite pests and will reduce the possibility of secondary pest outbreaks. Lebanon ProScape Fertilizer with 0.067% Acelepryn® Insecticide and Grub Preventer will reduce the target pest species that may serve as a food source for beneficial arthropods.

RESISTANCE MANAGEMENT

Some insects are known to develop resistance to products used repeatedly for control. When this occurs, the labeled dosages fail to suppress the pest population below threshold levels. Because the development of resistance cannot be predicted, the use of this product should conform to resistance management strategies established for the use area.

These strategies may include incorporation of cultural and biological control practices, alternation of active classes of insecticides on succeeding generations and targeting the most susceptible life stage. Consult your local Lebanon Seaboard Corporation representative, Cooperative Extension Service specialist or est control advisor for the latest information on resistance management in your area.

RESTRICTIONS

Not for use on plants (except turfgrass on sod farms) being grown for sale or other commercial use, or for commercial seed production.
 Do not formulate this product into other end-use products without written permission from Lebanon Seaboard Corporation.

Do not apply this product in commercial nurseries and greenhouses.

• Do not apply more than 750 pounds (equivalent to 0.5 lb of active ingredient) of product per acre per year in broadcast applications to turfgrass or landscape

ornamental plants. • Do not apply more than 300 pounds (equivalent to 0.2 lb of active ingredient) of product per acre in a single application on sod farms.

Wait a minimum of 7 days to retreat

Greens, tee boxes: Do not apply this product within 25 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).

STORAGE AND DISPOSAL

taminate water, food, or feed by storage or dis STORAGE: Store product in original container only in a location inaccessible to children and pets. Do not contaminate water, other pesticides, fertilizer, food o eed in storage. Not for use or storage in or around the home. PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product must be disposed of on

e or at an approved waste disposal facility. CONTAINER DISPOSAL: Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill, or by incineration, or by other procedures approved by state and local authorities
