Smith's Green Clean Pro

GREEN CLEAN PRO

Biodegradable concrete cleaner & profiler

- User friendly
- Non-corrosive
- User Friendly
- No Red Label

Smith's Oil Clean

OIL CLEAN

Powerful enzymatic cleaner for removing oil, food and other hydrocarbon stains

- Easy to use
- Solvent free
- No Red Label

CT-8

Cleaner & Toughener

Powdered concentrated cleaner for exterior textured concrete

- Aggressive Cleaner / Degreaser
- Strengthens concrete surface
- Low Odor

Smith's Neutral Detergent

NEUTRAL DETERGENT

Concentrated Hand Surface Floor Cleaner

OVERLAY & LIQUID RELEASE

4in1

Multi-use polymer modified cement – just add water for spray, trowel, stamp & carve applications

- High polymer modification
- Superior performance
- Knockdown
- Curb & Repair
- Countertop
- Broom finish
- Interior & Exterior application
- Vehicle traffic
- Water only – no additive waste

1

2

3

Smith's 4 in 1 Overlay - 1) Driveway | 2) Faux Wood Plank | 3) Pool Deck

SMITH'S LIQUID RELEASE AGENT SUPER RELEASE

Clear release agent with Bubble Gum scent for stamp tools/mats imprinting fresh concrete or polymer-modified Overlays, to include Smith's 4in1 Overlay

SMITH'S DRY PIGMENT PACKS

INTEGRAL COLOR POWDER PIGMENT

High quality pigments utilized to integrally color Smith's 4 in 1 Overlay

- 16 Colors

STAINS, COLOR & ADDITIVES

Waterborne Stains – user-friendly, water submersible, low VOC, alkali, weather & UV Light resistant

WATERBORNE CONCRETE STAIN Decorative concrete stains for achieving a natural variegated appearance
COLOR FLOOR ▪ UV Light Stable ▪ 33 standard colors ▪ Water submersible
 ▪ Interior & Exterior ▪ Low odor

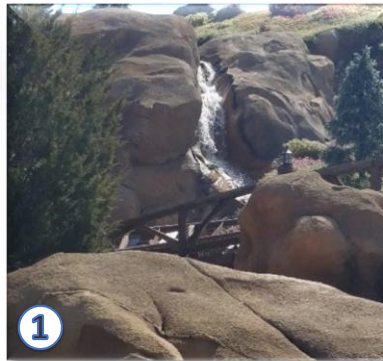

Smith's Color Floor: 1) Commercial office / food court | 2) Retail flooring | 3) Artistic compass

COLOR WALL

Vertical Grade, Waterborne Stain

Low sheen concrete stains designed to achieve realistic faux rockscapes & other vertical applications

- Water-based stain / 33 colors
- Water submersible
- UV Light, Weather & Alkali resistant
- Low VOC
- Low Odor

Smith's Color Wall: 1) Faux rock scape & waterfall | 2) Retaining wall

COLOR ACCENTS

Metallic Waterborne Stain

Single component metallic flake system suspended in modified acrylic

- Metallic & Luster
- Low Odor / Low VOC
- Fast air dry

Smith's Color Accents

BASE BOOST
 with FLOUROPOLYMER TECHNOLOGY
 Lithium/Potassium Silicate-based blend
 Concrete Densifier/Adhesion Promoter

- Lithium / Potassium Silicate blend with Flouropolymer technology for densifying concrete or as an adhesion promoter additive in Smith's Color Floor, Smith's Color Wall & part of Smith's Burnish with Color Floor™ system
- Flouropolymer Technology for Increased Wetting
- Protected by Smith's Surface Guard prior to burnishing

Polished Concrete Related

LIQUID DYE

Concentrated dye solution diluted with acetone or water

- Dye and Seal / Polish
- Fast air dry
- Interior Applications
- Vibrant Colors

Smith's Liquid Dye & Smith's Surface Guard

Premium Lithium / Potassium Silicate Blend
DENSIFIER LP
 For Polished & Burnished Concrete

- Premium Lithium / Potassium Silicate blend for densifying concrete as well as dustproofing power trowel finished concrete

FAST-CURING, READY-TO-USE SEALER
SURFACE GUARD

- Fast-Cure
- Protects Polished Concrete & Terrazzo
- Gloss

SEALERS - VOC Compliant

Penetrating Sealers – water-based, natural/enhance color appearance, extends substrate life cycle, reduces maintenance costs

- Water Repellency
- Natural Appearance

1

- Oil, Water & Stain Repellency
- Enhance color

2

- Oil, Water & Stain Repellency
- Natural Appearance

3

Smith's Shield Series | 1) Water Shield – Brick patio | 2) Enhancer Shield – Flagstone patio | 3) Stain Shield – Oil, Water & Glass Cleaner

Hybrid penetrating sealer that can be applied as a clear, non-darkening sealer to concrete & other porous substrates.

1

2

Smith's Color Shield: 1) Natural Gray | 2) San Diego Zoo Entrance

Penetrating, Solvent-based Silicone sealer for Vertical Masonry

- No color change / enhancement
- Water Repellant yet Breathable
- Roughly 6 year Effective Life

Film-Forming Sealers:

U.V. Stable Exterior High Performance Sealer for stamped concrete, pavers, & other traditional decorative concrete

- Infinitely Recoatable
- "Wet Look" Color Enhancing

High Performance Polyester Polyurethane sealer

- U.V. Stable for Interior / Exterior
- Durable
- Chemical Resistant
- 1 hour Pot-Life

Ready-to-Use Polyurethane Acrylic modified sealer

- No color enhancement / darkening
- U.V. Stable & Non-Yellowing
- Primer for Poly-WB (direct-to-concrete)

3

1) Poly-SB Gloss – Stamped concrete refreshed | 2) Poly-WB Low Sheen over 4in1 Overlay & Color Floor | 3) Poly-SEAL over Color Floor

MISCELLANEOUS

TRACTION ADDITIVES

Available in:
 • 45 Grit • 60 Grit
 • 45/60 Grit blend

1) Pavers – Poly-SB Gloss | 2) Rockscape – Color Wall with Poly-SEALs | 3) Faux Geyser – Color Floor & Color Accents

Smith Paint Products began manufacturing paint in 1929 to supply the Central Pennsylvania marketplace. Today, we focus on the formulation & production of specialty coating products.

Our products can be seen worldwide in a variety of applications ranging from Food & Beverage to Industrial Manufacturing facilities to decorative concrete applications at Amusement & Theme Parks to Statues & Monument restorations, & much more.

We realize to make a superior product, our standards must remain consistent by utilizing first-class manufacturing processes & quality raw materials along with stringent control measures. Our low overhead & exceptional buying power affords Smith Paint Products the ability to offer a premium product at an exceptional value. At Smith Paint Products, company excellence is accredited to superior quality products & customer care. Not only do we formulate & manufacture specialty coatings, **#WeMakeFloorsBetter**
