**Precautionary Statements:**  
Wear protective gloves and clothing. Remove contaminated clothing and wash before reuse. Avoid breathing dusts. Use only outdoors or in well-ventilated areas. Call poison control or seek medical attention if you feel unwell. Wash thoroughly after handling. Do not eat, drink or smoke when using this product.

**First Aid:**  
If inhaled: Move to fresh air and keep comfortable. Seek medical attention if unwell.  
If on skin: Wash affected areas with soap and water. Seek medical attention if irritation persists. Wash contaminated clothing before reuse.  
If in eyes: Immediately flush with water for 15-20 minutes. Seek medical attention if irritation persists.  
If swallowed: Rinse mouth. DO NOT INDUCE VOMITING unless directed by a medical professional. Seek medical attention if unwell.

**DIRECTIONS FOR USE**  
Apply only as directed during the growing season.  
Use Contec DG Dispersing Granule Technology 0-0-25 for greens, tees and other turf areas where a potassium fertilizer is desired or when manganese and magnesium are needed to help correct or prevent deficiencies during the growing season.  
Watering in this product will disperse each granule into thousands of particles. This will facilitate the movement of the nutrients into the soil. This particle dispersion will also greatly reduce ball, shoe and mower damage - minimizing customer loss. Cold weather and/or cold water (lower than 65 F / 7 C) can result in slower particle dispersion.  
Application to wet, close-cut golf turf may result in later staining, which will abate as the turf is brown/black appearance. This can occur even if immediate irrigation or rainfall occurs. It is recommended that this product be applied to dry turf only.

**Application Rates:**  
LIGHT: 2.0 bu/1,000 sq. ft.  
LOW: 3.0 bu/1,000 sq. ft.  
MEDIUM: 4.0 bu/1,000 sq. ft.  
HIGH: 5.0 bu/1,000 sq. ft.

**For all applications:**  
Immediately after application, apply a minimum of 0.2 inches of water to disperse particles into the root zone. Due to variations in temperature and water pH, best results are achieved by splitting the irrigation into 2 applications at 10 - 15 minutes apart. This will allow for more thorough particle dispersion into the root zone.  
Particle color may vary from lot to lot.  
Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden and sweep any product that lands on the driveway or street, back onto your lawn/garden.  
**Storage and Use:**  
Store in a clean, dry place.  
Reseal open bag by rolling top down and securing.  
Use only clean, dry spreaders.  
Do not leave unused product in spreader.

**IMPORTANT: READ BEFORE USE:**  
Read the entire Directions for Use and the Warranty, Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or Buyer accepts the following Warranty, Disclaimer and Limitation of Liability:
