

Specifications

Nominal Voltage	36V
Watt Hours	270 Wh
Amp Hours	7.5 Ah
Rated Capacity	6000 mAh
Charge Current	3000 mA
Number of Cells	30
Cell Rated Capacity	2000 mAh
Weight	1.89kg

Composition/Information on Ingredients

CHEMICAL NAME	PERCENT OF CONTENT	CAS NO.
Lithium Cobalt Oxide (LiCoO ₂)	25%~35%	12190-79-3
Graphite (C)	15%~20%	7782-42-5
Polyvinylidene Fluoride (PVDF)	1%~5%	24937-79-9
Acetylene Black (SP)	0.5%~3%	1333-86-4
Aluminum (Al)	21%~23%	7429-90-5
Copper (Cu)	10%~11%	7440-50-8
Lithium hexafluorophosphate (LiPF ₆)	0%~15%	21324-40-3

FEATURES

TOMAHAWK lithium battery is proved to be safe without explosion risk, without heavy metal.

TOMAHAWK lithium batteries are built for a new generation - replacing lead acid battery.

Every TOMAHAWK battery is tested in the factory before being sent to customers

All batteries are backed by a 1 year warranty with reliability you can trust. Your first year of use is supported by our technicians.

CHARGING STATION
Compatible with Tomahawk 36V Charging Stations

TOMAHAWK EQUIPMENT
Compatible with Tomahawk Backpack Foggers and Leaf Blowers
