WILD HOG SCRAM

PROFESSIONAL™

Granular & All Natural

WILD HOG REPELLENT

Designed & formulated for professional use:

- Pest Control Operators • Landscapers • Grounds & Golf Course Superintendents
- All Landscape Installation & Maintenance Professionals

APPLICATION INSTRUCTIONS: Apply using a rotary spreader. Apply at a rate of one pound per 600 square feet. Cover the area where wild hog damage has been observed and/or is occurring. Extend the coverage to about thirty (30) feet around and beyond the damaged area. For lawn and garden areas of 5,000 or less square feet, we recommend covering the entire area. Hand sprinkle, using the scoop provided, within damaged garden plots and beds. If burrow entrances can be located, drop a half scoop into each hole and flush down thoroughly with water. Water full application in for 5 minutes. Reapply Hog Scram Pro in 14 days after the initial application and then every 30 days or as needed. Heavy or extended periods of rainfall will shorten the effective period. **ORGANIC GARDENING:** Can be used around garden beds along drip line. This will stop the problem and only a single band nearest the bed will be needed for maintenance applications going forward.

PRECAUTIONARY STATEMENTS: Wash skin after use. Avoid contact with eyes or cuts. If in eyes, flush with water 15-20 minutes. Call Poison Center or doctor for treatment. **Storage:** Store in original sealed container. Do not contaminate water, food or feed by storage or disposal. Do not apply directly to water. **Disposal:** Do not reuse empty container. Dispose of properly. Buyer assumes all responsibility for safety & use not in accordance with directions.

COVERAGE: A 22 lb. container will protect approx. 13,200 sq. ft.
